

## What We Do

### Professional Development

Deliver business and industry best practices through education, training, and professional development programs such as Lean and Six Sigma.

### Site Master Planning

Provide proven experience and knowledge-based implementations of effective plant layouts, manufacturing process plans, and business systems.

### Simulation and Decision Support

Design simulations and models to perform "what-if" analysis on systems, allowing more complete and accelerated decision making.

### Solid Modeling and Design

Provide engineering support and access to advanced engineering tools and concepts related to product design, manufacturing, and assembly.

### Smart Manufacturing

Provide tailored support to help manufacturers adopt advanced technologies and automate business processes. Services include technology assessments, implementation guidance, process optimization, and technical training.

### K-12 Community Outreach

Program that engages K-12 educators and students to provide demonstrations, workshops, and exposure activities related to manufacturing, Industry 4.0 topics and career path exploration.

## ABOUT US

We meet the needs of Mississippi's manufacturers by providing technical expertise in the areas of product and process improvement, education, and advanced engineering tools.

### Economic Impact

\$7.6 Billion

### Jobs Created/Retained

7,781

\*Economic impact amounts are collected and verified by the U.S. Department of Commerce. Data current as of April 2025.

## Where We Are

[www.cavse.msstate.edu](http://www.cavse.msstate.edu)

We have three offices located across the state to better serve the needs of Mississippi's industrial and manufacturing companies.

CAVS-E Canton  
153 Mississippi Parkway  
Canton, MS 39046

CAVS-E Communiversity  
7003 S. Frontage Road  
Columbus, MS 39701

CAVS-E Gulf Coast  
Biloxi, MS
